A CONGRESSIONAL committee recently reported that during the past six months, 50,000 foreign paupers, lunatics and criminals have entered the United States through Canada, and in a discussion of this subject the Salt Lake Tribune says that "our government is just no government at all unless it can protect the country from an invasion of thieves and lunatics."

The new American navy, when completed, will consist of twenty-two vessels, ranging from the armored cruiser, "Maine," carrying 444 men, down to a first-class torpedo boat, carrying four officers and eighteen men. There will be 5,736 men on board the twenty-two vessels—500 officers and 5,236 sailors and marines.

The news of the Pope's serious illness will be received with sorrow and concern by many Americans not adherents of the Catholic Church. The Supreme Pontiff has certainly gained the respect of the whole civilized world by his dignified bearing, while, also, he is admired for his learning by every one.

JOSEPH CHAMBERLAIN is said to be very proud of his wife's ancestry. He is even able to make his credulous countrymen believe that her ancestors left England in the "Mayflower"—a strange claim, by the way, to English popularity.

The amount of the fund which it is proposed to raise for Mrs. Phil Sheridan is \$100,000. Senator Allison and Senator Hale have the matter in charge, and Senator Stanford has promised to contribute \$5,000.

In memory of her soldiers who fell in the Gettysburg fight, New York State is to build a \$100,000 chapel on Cemetery Hill. The site was selected by Colonel H. W. Owen, U. S. A., on Thursday of last week.

MISS MARY B. GREENLY, of East Lebanon, N. H., is entitled to honorable mention. She recently saved from drowning three men who had broken through the ice while skating.

THE relieving of J. D. Minor from the position of Commissary at the State Prison was not an act calculated to make many friends for Warden McCullough.

PROFESSOR GRAHAM BELL says that the congenital deaf muteness of the country are increasing at a greater rate than the general population.

A War Predicted.
London, Jan. 23.—Stanhope, Secretary of State for War, addressed a meeting at Lincolnshire last evening. He said a thunder cloud was hanging over Europe, and that sooner or later it would burst, bringing the greatest and most horrible war ever known. It was impossible to view the preparations for war now being made throughout Europe without feeling that war was approaching. He hoped, however, that the wisdom of England's statesmen would prevent the nation from becoming involved.

Too Many Wives.
Chicago, Jan. 23.—Mrs. Agnes Emily Hope, daughter of John Rooney, well-to-do resident of Chicago, was told to divorce to-day from John Hope, a San Francisco portrait painter. The latter acknowledges in a correspondence that he has another wife in Dunedin, New Zealand. Both wives have children by him. He says he became himself on the ground that he believed the New Zealand wife to be dead.

Formidable Strike.

New York, Jan. 20.—9 A. M.—With the exception of two systems, every line of street-cars in this city is tied up. When the last trip was made last night each car was run into the stables, and at 4 A. M. the great strike commenced. Up to this hour no disorder has been reported. Superintendent Murray and Inspectors Steers, Williams and Coplan have been at police headquarters since daybreak, consulting with the officers of the surface roads. Two police patrol wagons are in readiness for any emergency, and a large number of reserves are quartered in the building.

The only cars running are those of the Third Avenue and Blooming street roads. The President of the Sixth Avenue road said he would run a car this morning over the line of his route even if all the strikers combined to stop it. The strikers are preparing to do this, and they predict that a car will not run below Eighth street. The police reserves are all on duty in anticipation of trouble. In all, about 4,500 men have stopped work.

A lively row occurred on Grand street this morning, when a crowd of strikers tried to overturn a car. A large mob blocked the streets when the car started, and all sorts of obstructions were placed upon the track. A crowd surrounded the car and unchained the horses. The police collected in force, and had a hand-to-hand fight with the mob. Despite the police, however, the mob lifted the car bodily and swung it across the track. The police kept dashing up all the time and attacked the struggling strikers. At a moment or two of this, and the crowd became disordered and began to scatter—the police had gained the day. The police captured one of the ringleaders.

Up to 11:30 A. M. six cars had been sent out, and two had made the trip. A number of minor scummings between police and strikers have taken place.

About 3 o'clock this afternoon 100 policemen were dispatched from police headquarters to Thirty-third street and Third Avenue, where a riot was reported to be in progress. Preparations have been made in Brooklyn to quell the Thirtieth, Nineteenth and Twenty-third Regiments in case of a riot arising out of the Atlantic Avenue horse-car tie-up. The company has decided not to run any cars at present. The police authorities in Brooklyn, unlike those in New York, appear to be in thorough sympathy with the strikers. Mr. Richardson, son of the proprietor of the road, defied the Brooklyn Aldermen to revoke the company's charter. He said this could only be done by the Legislature.

An Unsettled Condition.
Paris, Jan. 23.—It is stated that Floquet, Prime Minister, does not intend to introduce in the Chamber of Deputies an anti-Boulangist bill, nor does he intend to propose a dissolution of the Chamber. He will introduce to-day a bill to re-establish the Scrutiny of Arrondissement system of voting. The Boulangist press has decided to remain passive and to profit by any mistakes that may be made by the Government. The downfall of the Floquet government is expected when it demands the urgency for the Scrutiny of Arrondissement bill, as the Boulangists and probably many Opportunists and Radicals, will refuse to agree to it. It is stated that Goblet and Delcressé both desire the position of Prime Minister. The Boulangists declare that, should the Government blunder, Boulangier will be the President, with executive power, within a month.

Referred to Congress.
Washington, Jan. 23.—It was reported this morning that the President would to-day send to Congress a communication on the Samoan question. An inquiry at the White House elicits the statement that the report concerning the message is untrue. In an interview published at Baltimore this morning, Secretary Bayard says Germany has given this country no cause for concern, but that our flag has not been insulted or American property destroyed, and the whole question is "Shall this country assert the independence of Samoa, by force of arms, if need be, against German aggression?" As this involves the question of peace or war, the determination of which resides with Congress, the whole subject has been referred to that body, the President not feeling authorized to take further steps, which might precipitate hostilities.

No More Fishing Licenses.

Ottawa, Jan. 23.—It is reported in official circles that the Government will shortly announce its abandonment of the Modus Vivendi, which authorizes the issue of fishing licenses to American vessels. The existing licenses will continue to hold good until they lapse.

CONGRESSIONAL MATTERS.

WASHINGTON, Jan. 23.—The Committee on Ways and Means this morning, received the tariff bill and Senate amendments to the Treasury Department in order to secure computations as to the effect on the revenue by the proposed changes in the present law. The Senate resumed the consideration of the diplomatic and consular appropriation bill, the question being on Gibson's amendment to make the title of Ministers to France, Germany, Great Britain and Russia, "Ambassadors."

The Senate went into secret session this afternoon on the Samoan amendments to the diplomatic appropriation bill. After an hour spent in secret session, the doors were opened and Sherman proceeded to address the Senate on the pending amendments.

Burrows of Michigan presented a petition of thirteen thousand citizens of Utah, against the admission of Utah. Referred. The House then went into Committee of the Whole on the sundry civil appropriation bill. Chairman Herbert of the House Committee on Naval Affairs, says that an amendment will probably be offered to the naval appropriation bill when it is called up for consideration in the House. Appropriating \$100,000 for a coaling station at Pago-Pago. Herbert has not been able to confer with all the members of the committee, but such as have been spoken to are in favor of the amendment.

The Oates naturalization bill was abandoned to-day by the House Committee on Judiciary. It was found that to withhold the rights of citizenship for five years would, in connection with the alien land act, operate to prevent an emigrant from purchasing a home or farm for himself until the end of that period. A new bill will be presented by Oates at the next meeting of the committee.

The Postal Service.

WASHINGTON, Jan. 23.—The Postmaster-General has sent, in reply to the House Committee on Post Offices and Post Roads, his opinion on House bill 12,100, which requires railroad companies to carry mails at rates of compensation fixed by law. In his answer the Postmaster-General points out the present condition of the law, under which any company may refuse to take mails and by which the Department can secure their carriage by contract only. He suggests that the present condition of the law, under which service may be stopped at the caprice of a carrier, constitutes a reproach to a Government constituted to promote the public welfare. The committee had unanimously voted to report a bill which provides that if any railroad company shall refuse or neglect to convey any mails upon which the Postmaster-General may require such service, or willfully refuse to obey any law respecting the transportation of the mails, it shall be liable to a penalty not exceeding \$1,000 for each day on which such refusal or neglect shall be persisted in. The Postmaster-General will to-morrow communicate to the committee his views on the proposed horizontal reduction of compensation to railroads for carrying mails. He will advise against the proposed measure as being inexpedient at this time, and to some extent unfair.

An Exciting Scene.

Peters, Jan. 23.—A scene of great excitement was enacted in the Hungarian Parliament to-day on the discovery being made that detectives occupied places in the strangers' gallery. Members of the Opposition thronged the floor of the House shaking their fists at the officers and shouting, "Turn them out!" The members acted like maniacs. The detectives were finally forced to fly. They narrowly escaped being lynched.

Taking Advantage of the Situation.

SACRAMENTO, Jan. 23.—Solomon offered a concurrent resolution in the Assembly this morning calling upon California's representatives in Congress, in the light of the Samoan difficulty and the prospect of war, to exert their influence to have a Government eternal and a manufactory for heavy ordnance established in this State. The resolution was adopted and immediately transmitted to the Senate.

Taken Under Adversity.

SAN FRANCISCO, Jan. 23.—Judges Sawyer and Sabin, in the United States District Court to-day, heard the motion of Newlands vs. Terry to have the State Court enjoined from appointing a receiver to the estate of the late William Shanon, as petitioned for by Mrs. Sarah Althea Terry. The motion was taken under advisement until to-morrow.

Killed by Tramps.

SCRANTON, Pa., Jan. 23.—Last night a terrific snow storm occurred between officers Ellis, Lewis and Davis of the Scranton police, and a gang of tramps, in which one of the latter was twice shot in the abdomen. The officer died to-day. Three arrests have been made.

Sold at \$1 a package. Three for \$2.50.

Oregon is one of the most productive States in the Union. Its vast mineral resources contain gold, silver, copper, iron and coal. Its immense tracts of grazing lands support thousands of cattle and sheep, and its extensive agricultural regions produce all the cereals in abundance, the largest per acre being, in some instances, the largest in the world. Among the useful and valuable products of the Western States may be mentioned Oregon Kidney Tea, which has proved a boon to thousands afflicted with pain in the kidneys and difficulties. It is purely of vegetable composition and never fails. Sold by William Fininger.

IRRIGATION.

An interesting letter received by Judge Bigelow from Senator Stewart.

Judge Bigelow is in receipt of the following interesting letter from Senator Stewart:

WASHINGTON, D. C., Jan. 19, 1889.
MY DEAR JUDGE: I am in receipt of your favor of the 5th inst. I regret that I could only obtain for you three of the documents you desire on the irrigation question; viz.: Major Powell's last report and George P. Marsh and R. J. Hinton's "Irrigation." I have mailed these to you, together with two or three other documents on the subject. I have handed a list of the other works you desire to Major Powell and asked him to obtain them for you if possible.

The irrigation question is one of the most important that can be considered by Congress or the people. Over two-fifths of the entire area of the United States, exclusive of Alaska, requires irrigation for successful cultivation, and the problem of utilizing all the water in that vast region must be solved by wise legislation and intelligent engineers in the field. I understand this subject when here before in 1873 and secured the passage of an act appointing a commission to examine the reports upon irrigation in the San Joaquin Valley. It resulted in a report of very great value, but it is out of print and I am unable to send you a copy, but have asked Major Powell to send it to you if he has a copy. I had much difficulty in getting one for myself. I also induced the Navy and Treasury Departments to unite in sending Professor Davidson to Egypt, India and other countries where irrigation had been practiced, to make a report. His report is also a very valuable document and out of print too. During the twelve years I have been out of the Senate, Professor Powell had some examinations made as to the extent of the arid region, but no practical movement was inaugurated for surveys for reservoirs, ditches and other hydraulic works. As soon as I returned to the Senate I commenced again to agitate the question both before Congress and the Departments. Much interest was soon manifested, which resulted in an appropriation of \$100,000 for surveys and the reservation of all reservoir sites to be hereafter located by the Government, and also all lands to be irrigated thereby. The provision reserving these lands was put on in the House. I resisted it all I could because it interferes with present occupation, but I concluded to take the appropriation with this reservation believing that I would be able to get further legislation allowing the people to acquire title to land reclaimed by the contemplated reservoirs and other hydraulic works. I will make an effort with others to secure a good appropriation this year with the necessary modification of this reservation. The importance of the subject is becoming better understood every day, and in a little time the government will do its full part in aiding the people to make homes in the arid region which is the most healthful, and that portion which can be irrigated, the most productive part of the United States. The dense populations which have occupied Persia, India, Egypt and other arid countries establish the fact that irrigation will make the arid region of the United States the home of many millions.

The silver question is bound to prevail ultimately. It is a matter of education of the people. While the people are entirely ignorant of the question the money manipulators of that commodity have used it for oppression. You would be surprised at the ignorance that still prevails even in the two Houses of Congress. The only way to reach them is through their constituents. I have been working diligently to influence Congress by distributing documents among the people all over the country ever since I have been in Washington. On the 22d inst. I delivered a speech in the Senate for the purpose of distribution. I am now sending out a large number of copies of it. I intend to distribute about two hundred thousand copies. The speeches and documents I have already distributed have kept up the discussion in local newspapers pretty generally throughout the country, and a great many public bodies, and particularly meetings of grangers and mechanics, are passing resolutions for free coinage of silver. By this means I hope to secure such a sentiment as will force the free coinage of silver. Yours, very truly,
WM. M. STEWART.

Lake Tahoe Items.

The following items are taken from the Truckee Republican: There is excellent sleighing between Truckee and Tahoe City.

Mr. Folsom is rigging up a logging camp at Zephyr bay and operations will be extensively conducted there next summer.
It was very rough on the lake yesterday and the steamer did not make its usual trip.
Marlette & Folsom have a large force of men cutting wood.
The lake is getting lower than ever and a person can wade across the outlet without the water reaching his knees. It is much lower than last fall, and unless some storm comes the outlet will be entirely dry.

Stock Shipments.

Fourteen cars of beef cattle, shipped at Wells and Iron Point by J. B. Moore and Reese Evans, were unloaded here yesterday and reshipped to day.
Wagner also shipped 60 head, which he bought of Louis Dean.
Louis Dean will this evening ship four cars of beef cattle to Stockton.

A Festive Commemorative.

John Shanahan was arrested in Virginia City last Sunday morning on a charge of discharging fire-arms within the city limits. The accused is reported to have said that he was hunting for police officer Murphy, who he proposed to shoot on sight.

The Georgia Minstrels.

A good house greeted the Georgia Minstrels last night and the programme was up to the standard. They will appear to-night in an entire change of programme.

THEIR REPORT.

What the Naivast and Boundary Committee Accomplished.
Mr. Poudjé, by leave, offered the following report of special committee out of order:

To the Senate and Assembly of the Fourteenth Session of the Legislature of the State of Nevada—GENTLEMEN: We, your joint committee appointed to visit and confer with the Legislature of the State of California in reference to immediate legislation to prevent the pollution of the waters of the Truckee river, and also with reference to the boundary line between California and Nevada, most respectfully report that we visited Sacramento on January 21st, and conferred with B. W. Waterman, Governor of California, and with a joint committee appointed for that purpose by the Legislature of California, now in session, consisting of S. M. White (President of the Senate), Hon. E. T. Moffit, Hon. Frank McGowan, Hon. W. E. Dargie, Hon. A. F. Jones, Hon. Robert How (Speaker of the Assembly), Hon. H. M. Brickner, Hon. T. S. Williams, Hon. F. A. Hall, Hon. L. J. Franks, Hon. Archibald Yell; that we received at their hands the utmost courtesy and fair consideration; that we arrived at a perfect understanding concerning the legislation necessary to preserve in their purity the waters of the Truckee river and other streams crossing the State line; and to carry out such understanding we recommend the passage of Senate bill No. 14, entitled, "An Act to prevent the pollution of the waters of the lakes, rivers and running streams of the State by sawdust," which the Senate has passed, and is now pending in the Assembly, to be enforced when it becomes a law in connection with such similar Acts as may be passed by the Legislature of California.

With regard to the moving of the boundary line between the two States westward to the summit of the Sierra Nevada Mountains, we were accorded a fair and considerate hearing by Governor Waterman, and by the committee above mentioned, and other members of the Legislature of California, with the answer upon their part that it was a question new to them, and one which they had not considered a question of great importance, and upon which, in view of the prevailing sentiment in California, they were at present not ready to act. The hospitality shown your committee by Governor Waterman and members of the Legislature of the State of California, was indicative of a friendly feeling which exists between the people of California and Nevada, and which it is hoped will always continue between these two sister States.

E. WILLIAMS,
Chairman of Committee.
H. B. MAXON,
Clerk of Committee.

The Chilli Stain.

That sets the naked branches quivering is not felt by the valetudinarian in-doors, but not all the covering that can be piled on his warm bed, nor all the furnace heat that an-athracite can furnish will warm his marrow when chills and fever run in icy fingers along his spinal column. Hostetters Stomach Bitters is the thing to throw new warmth into his chilled and aching frame, to remedy the fever and exhausting events which characterize the chill. Dumb ague, ague cake, bilious remittent—in short, every known form of malarial disease is mitigated by this potent, and at the same time wholesome and genial medicine. Biliousness, constipation, dyspepsia, indigestion, loss of appetite and sleep, kidney trouble, rheumatism and debility are also remedied by it. Use it with persistence to effect a perfect cure.

Harder in Montana.

At Radersburg, M. T., about ten days ago, Robert Hoesfeldt, a prominent rancher of Jefferson county, was shot and killed by John Freeman. The latter has been pasturing some horses on Hoesfeldt's ranch and went for them. There were \$28 charges due, and Hoesfeldt's son, in the absence of his father, refused to let Freeman take the horses until the amount was paid. The latter returned to the village, and began indulging freely in liquor. Subsequently he met Hoesfeldt and paid him, and while the two were taking several drinks together in a friendly manner, Freeman suddenly drew a revolver and shot him.

Scale-bug Destroyers.

L. J. Ross at Los Angeles has just received a consignment of twenty-five skylarks from Europe. The birds are supposed to be the natural enemy of the scale bug. They will be let loose in a few days, except a few pairs, which will be kept for breeding purposes.

A Pointed Criticism.

The Elko Independent shows its want of faith in juries by the following statement: "The fact that one charged with crime in Elko county is acquitted by a jury of twelve men, is no evidence that the accused is innocent."

A Valentine's Social.

The ladies of Trinity Guild will give a valentine's social at the Nevada Theater on February 14th.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters give the same good praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cts and \$1 per bottle at Hodgkinson's drug store.

The winter at the South is said to be a mixture of a cool spring with a warm autumn.

Is Consumption Incurable?

Read the following: "Mr. C. H. Morris, Newark, Ark., says: 'Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made.' Jesse Middewaters, Decatur, Ohio, says: 'Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles; was given up by doctors; am now in best of health.' Try it. Sample bottles free at Hodgkinson's drug store.

A patient in the Bloomington Insane Asylum has an income of \$70,000 a year.

This is the season of the year when the raw, cold winds create sad havoc with the hands and complexion. Soft, white hands and a clear "peachy" complexion can be assuredly preserved by the frequent application of Dandruff Specific. If rubbed into the skin well it leaves no greasy surface. The skin absorbs it. Sold by William Fininger.

The rush for Washington bids fair to exceed all previous occasions.

Beckley's Arnica Salve.
The best salve in the world for cuts, bruises, sores, ulcers, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. Put up by Hodgkinson & Co., druggists.

It should be generally known that Dr. Henry's Dandelion Tonic insures a hearty appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and wakefulness, and will infuse new life and strength into the weakest invalid. Sold by William Fininger.
